PROFESSIONAL SUMMARY

Data Analyst with 3+ years of experience turning operational data into executive-ready dashboards and reports. Currently in the CEO Office at Tropilite Foods, building Power BI and Excel dashboards on SAP Business One data across Sales, Inventory, Procurement, Production and Finance. Strong in SQL, Python (Pandas, NumPy), DAX and MIS automation, with hands-on experience in KPI monitoring, variance analysis and forecasting support. Comfortable working independently and communicating insights to senior stakeholders.

TECHNICAL SKILLS

BI & Visualization: Power BI, DAX, Power Query, Advanced Excel, Dashboard Development, Data Visualization
Databases & Query: SQL, MySQL, PostgreSQL, MS SQL Server
Programming: Python, Pandas, NumPy, Machine Learning Fundamentals
Business Systems: SAP Business One (SAP B1)
Analysis & Reporting: MIS Reporting, KPI Tracking, Variance Analysis, Profitability Analysis, Trend Analysis, Forecasting Support

PROFESSIONAL EXPERIENCE

Data Analyst (CEO Office) | Tropilite Foods Pvt. Ltd. | Apr 2026 – Present

- Built Power BI and Excel dashboards on SAP B1 data covering Sales, Inventory, Procurement, Production and Finance, used by the leadership team for weekly/monthly reviews.
- Automated AR and AP reports, COGS and production forecast reports, and daily, weekly and monthly MIS reports using Power Query, DAX and SQL, saving 10–15 hours of manual work per week.
- Built an inventory tracking dashboard for the Purchase team and a sales analysis dashboard for the Sales team, with KPI tracking, profitability, variance and trend analysis.
- Presented insights and recommendations directly to senior leadership to support business decisions.

Data Analyst | Numeric Infosystem Pvt. Ltd. | May 2023 – Dec 2025

- Collected, cleaned and analyzed large datasets using SQL, Python and Excel to produce reports and business insights.
- Built interactive Power BI and Excel dashboards for business reporting and data analysis.
- Automated recurring reports with SQL and Python, reducing manual effort by 80%.
- Worked with business stakeholders to support data-driven decisions.

PROJECTS

Zomato Performance Dashboard (Power BI, DAX) | GitHub

- Built an interactive Power BI dashboard to analyze Zomato's sales and overall business performance.
- Analyzed sales, ratings and user activity across cities and customer segments to track performance and spot trends.
- Used DAX measures and interactive visuals to turn the data into clear insights for decision-making.

Pizza Hut Sales Analysis (SQL, PostgreSQL) | GitHub

- Answered 12 business questions on pizza sales data using joins, subqueries and built-in functions in PostgreSQL.
- Analyzed total orders and revenue, top 5 pizza types, order distribution by hour, category-wise sales, revenue contribution by pizza type and cumulative revenue over time.
- Summarized the findings in a presentation (PDF) included in the repository.

Sales Report Automation (Google Sheets, Google Apps Script) | GitHub

- Automated salesman-wise filtering of sales data in Google Sheets, creating an individual sheet for each salesman.
- Set up automatic email delivery of each salesman's sheet, removing the manual filtering and sending step.

EDUCATION

Master of Computer Applications (MCA), RGPV (Rajiv Gandhi Proudyogiki Vishwavidyalaya), Bhopal | Jul 2026 – Jul 2028 (Pursuing)
